interest pursuant to an assignment dated October 30, 1991 and recorded at Reel 6167, Frame 0057. Petitioner hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to U.S. Patent No. 5,164,369, filed January 4, 1989, and issued on November 17, 1992. This agreement is to run with any patent granted on the above-identified application and to be binding upon the grantee, its successors or assigns.

Petitioner does not disclaim any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term of U.S. Pat. No. 5,164,369, as presently shortened by any terminal disclaimer in the event that one or more later: (1) expires for failure to pay a maintenance fee; (2) is held unenforceable; (3) is found invalid; (4) is statutorily disclaimed in whole or terminally disclaimed under 37 CFR §1.321(a); (4) has all claims cancelled by a reexamination certificate; or (5) is otherwise terminated prior to expiration of its statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title stated above.

The evidentiary documents accompanying or referred to in the instant Terminal Disclaimer have been reviewed by the undersigned and it is certified that to the best of Petitioner/Assignee The Scripps Research Institute's knowledge and belief, title is in the Petitioner/Assignee.

Serial No. : 07/715,397
